

EXPRESS Dehorner

Pistol Grip Dehorner

Pistol Grip Dehorner is designed for easy handling, quick trigger ignition, fast heating, and easy maintenance. Dehorner features a high-power fuel mix cartridge which installs into the handle eliminating cords and bulky tanks. Maximum temperature is reached in under three minutes and will operate for approximately two hours at up to 1,200°F/650°C. Dehorner weighs 1.3 lbs. with a full fuel cartridge, making it lightweight for the user. Pistol grip design is comfortable and easy to control. Routine maintenance such as replacement of tip, gas nozzle or ignition, can all be done by the end user.

144G Express Pistol Grip Dehorner complete with reversible brass 11/16" to 13/16" tip, 1 fuel cartridge, detailed multi-lingual instructions and carrying case.

446 High Power Fuel Cartridge (may be used with models 134, 144, 134G and 144G.)

14015 Goat Tip (9/16")

14020 Reversible Tip (11/16" to 13/16")

Propane-Powered Dehorner

The economical, well-designed, propane-powered Express Dehorner heats up to working temperature of 1,100°F/595°C in less than three minutes. Dehorner is lightweight, weighing less than 1 lb. for the unit itself, and features a built-in hook for hanging and a storage slot in the handle for the hex key. Dehorner has a reversible brass 11/16" to 13/16" tip and includes hose with fittings for propane supply as indicated. Unit comes complete with hose, regulator and flint striker.

114-005G Standard Express Dehorner with 5 ft. hose to fit 14 oz. propane cylinder (not included). Complete unit weighs 2.45 lbs.

114-015G Standard Express Dehorner with 15 ft. hose to fit standard size propane tank (not included). Complete unit weighs 2.7 lbs.

14020 Replacement Brass Tip reversible 11/16" to 13/16"

14015 Optional Goat Tip 9/16"

Inline Dehorner

Inline Dehorner is portable, easy to handle, safe, fast and efficient. The compact, ergonomically-designed Express Dehorner is fueled by a butane/propane mix in a handy cartridge that fits into the handle, so no cords or bulky propane tanks are required. The unit features an automatic piezo ignition and a totally enclosed combustion chamber for safety. Unit now heats to working temperature in two minutes and will reach temperatures of up to 1,100°F/595°C. One fuel cartridge provides enough dehorning power for two depending on outside temperature. Constructed with easy maintenance and for heavy use, the Express will dehorn calves up to 4 weeks of age. Unit weighs 2 lbs.

135G Express Portable Dehorner complete with 1 fuel cartridge, a 11/16" to 13/16" Reversible Tip, detailed instructions and carrying case.

446 Fuel Cartridge (may be used with models 134, 134G, 144 and 144G)

14020 Reversible Tip (11/16" to 13/16")

14015 Optional Goat Tip 9/16"

Battery-Operated Dehorner

Express Battery-Operated Dehorner was designed for mobility and ease of use. The 16 mm tip is intended to dehorn calves under four weeks of age. Battery life allows for dehorning 40 calves before a recharge is needed, shown on the built-in power supply display. Dehorner heats up and cools down almost instantly because of the ceramic head with integrated circular heating wire. Express Battery-Operated Dehorner has a unique patented system. It stops automatically when the 10-second dehorning cycle is complete – guaranteeing quality dehorning each time. Express Battery-Operated Dehorner comes complete with dehorner, battery, charger, 16 mm ceramic head, instructions and metal case.

Udder Hair Removers

The Express Udder Hair Remover provides an easy, fast, economical and safe alternative for removing udder hair. Express Udder Hair Remover helps reduce the spread of germs and risk of mastitis by removing unwanted udder hair; leading to faster and more thorough udder cleaning and easier teat identification for robotic milking.

Unit is set-up in less than 2 minutes and hair removal is done by drawing a figure-8 pattern 4-7" below the udder for 2 – 4 seconds. The soft flame provides a sensation of warmth and is painless to the animal.

Unit comes in two designs, making it useful for every operation. The angled burner is ideal for stanchions and the straight wand is ideal for parlors. Units come complete with hose, regulator for 14 oz. propane cylinder and flint striker.

572-5655 Express Udder Hair Remover with Angled Wand.

572-5656 Express Udder Hair Remover with Straight Wand.

572-5656 Express Udder Hair Remover with Straight Wand is ideal for milking parlors.

572-5655 Express Udder Hair Remover with Angled Wand is ideal for stanchion barns.
