Used with a rechargeable power drill, this nursing bottle brush makes quick work of cleaning large quantities of two, three and four quart nursing bottles. Soft, non-scratching nylon bristles reach every bend and corner of the bottle for easy cleaning.

To ensure maximum brush life, it’s recommended the drill is ran at low to medium RPM.

**RB7767** Nursing Bottle Brush for Cordless Drill, 18.5” overall length, 5.5” wide, 6 oz.
Nursers are available with standard screw-cap and nipple or with one-piece snap-on nipple. The snap-on nipple will also fit the Carnation bottle. Mouth of bottles measure 2-5/8” OD.

**Manna Pro 2 Qt. Nursing Bottles**
- 0942029906 Manna Pro Nurse for Calves.

**Milk Bar Nursing Bottle**
- Milk Bar Snap-On Nipple. Saliva contains enzymes for digestion and antibiotic properties for boosting calves' immunities and slow-nursing helps maximize saliva production. Calves have a strong sucking instinct and other nipples may provide too much milk too fast which can choke the calf and cause milk to enter the lungs or the wrong stomach where milk scours can result.

- 265-9001 Two-Quart Nursing Bottle with Milk Bar Snap-On Nipple.
- 265-9002 Two-Quart Nursing Bottle with Milk Bar Snap-On Nipple for colostrum feeding, yellow.

**Snap-On Nipples for Nursing Bottles**
- Designed to replicate nature, the Milk Bar nipple provides milk at the proper rate to stimulate saliva production which is essential for nutrition and for the development of the calf’s digestive system. Milk Bar Nipples fit our snap-on style nursing bottles or any bottle with top diameter of 2-1/2” to 2-5/8” (57 to 67cm). Nipples are available bulk or package of 2. Yellow nipple for colostrum is made of a softer rubber formulation.

- 265-0005 Milk Bar Snap-On Nipple, black, bulk.
- 265-0005-2 Milk Bar Snap-On Nipple, black, pkg. of 2.
- 265-0006 Milk Bar Snap-On Nipple for colostrum feeding, yellow, bulk.
